# hotels to hit in 2020

Whether you're looking for a city break, family holiday or are in for the long-haul, we've rounded up the most stylish new hotels in the world

## health & wellbeing

### Sands Hotel and Spa, Palm Springs, USA

The polar opposite of sleek, clinical spas, the Sands Hotel is a whimsical blend of bold pattern, warm sunset hues and vibrant Sixties style. Make like a Slim Aarons socialite, throw on your most psychedelic kaftan and grab a spot by the pool to see and be seen by Palm Springs' brightest and best. Over in the spa, which is set in an olive grove, a Morocco-meets-California decor mash-up tempts guests with luxuriant rhasoul body treatments and radiance facials. We adore the retro-tropical in-house restaurant Pink Cabana, designed by interiors powerhouse Martyn Lawrence Bullard, that references the racquet club summerhouses of the desert city's golden years. **Book it** Rooms from £150 (sandshotelandspa.com).
